PROFESSIONAL SUMMARY

MERN Stack Developer with experience building full-stack web applications using React, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, and AI integrations using Groq API and Python/FastAPI.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Context API, Bootstrap 5
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Python, FastAPI
Database:	MongoDB
Tools & Platforms:	Git, GitHub, Postman, VS Code
Deployment:	Vercel, Render

WORK EXPERIENCE

Content Creator Intern Jan 2024 – May 2024
Apptroid Technologies Pvt. Ltd.

- Created 30+ structured C++ programming tutorials covering OOP, STL, and problem-solving techniques.
- Utilized Canva for content design and ChatGPT to enhance clarity, structure, and explanation quality.
- Improved learner engagement by presenting technical concepts in a beginner-friendly format.

PROJECTS

SkillForge – AI-Powered Learning & Career Preparation Platform MERN Stack + AI/ML
Live Demo: https://skillforge-learnhub.vercel.app

- Developed a full-stack learning platform featuring personalized recommendations, quizzes, progress tracking, and career preparation tools.
- Implemented JWT authentication, RBAC, and REST APIs using React, Node.js, Express.js, and MongoDB.
- Integrated Groq AI for practicing mock interview questions and resume analysis, along with a Python FastAPI recommendation service using TF-IDF and cosine similarity.

AI Resume Analyzer MERN Stack + Python + NLP
Live Demo: https://cvmind-ai.vercel.app

- Developed an AI resume analyzer that extracts skills, scores it, matches job roles and gives suggestions (NLP based).
- Built a Python FastAPI backend for text extraction and analysis, integrated with a Node.js/Express REST API layer.
- Designed an interactive React dashboard displaying skill gap analysis, job match percentage, and section feedback.

AI Text Assistant MERN Stack + Groq API
Live Demo: https://mern-ai-assistant-orpin.vercel.app

- Developed an AI-powered conversational assistant integrating the Groq API for fast, real-time intelligent responses.
- Designed backend services using Node.js and Express.js to handle prompt requests and API communication securely.
- Implemented asynchronous request handling and managed API keys using environment variables.

Maths Quiz Application MERN Stack
Live Demo: https://mern-mqa-app.vercel.app

- Developed a full-stack mathematics quiz app with timed quizzes, randomized questions, and score tracking.
- Built REST APIs using Node.js, Express.js, and MongoDB to manage users, questions, and results.
- Used Context API for quiz state management and implemented admin features for managing questions and results.

EDUCATION

Bachelor of Engineering – AI and DS 2024 – 2027
Terna Engineering College

Diploma in Information Technology 2021 – 2024 (93.42%)
Government Polytechnic Mumbai

Secondary School Certificate 2021 (94%)
KEM High School
